

Dear Students,

Congratulations on beginning the SOLE CPW Bake Off! The SOLE office strives to provide an environment where you can test new ideas, or recipes! Each of the starter ingredients are used in exactly one of the starter recipes, and all of them are used exactly once. Figuring out which ones go with which recipe is part of the puzzle! Bake the starter ingredients into *soulful* forms through these three recipes before crafting the final recipe. By following the steps ahead, you will discover how it is to find community at MIT. Good luck!
