

Dear Students,

Congratulations on beginning the SOLE CPW Bake Off! The SOLE office strives to provide an environment where you can test new ideas, or recipes! Each of the starter ingredients are used in exactly one of the starter recipes, and all of them are used exactly once. Figuring out which ones go with which recipe is part of the puzzle! Bake the starter ingredients into *soulful* forms through these three recipes before crafting the final recipe. By following the steps ahead, you will discover how it is to find community at MIT. Good luck!

Note from SOLE: We hope to continue working with student organizations like Mystery Hunt to bring more fun to campus and throughout our processes as an office! We hope you enjoy the puzzles below and feel free to stop by SOLE anytime and we would be glad to chat or help you with any questions you might have! Additionally, if you are interested in leadership, please check out <https://engage.mit.edu/SOLE/first-year-leadership-program/> for a couple of programs for first-years! The information on this page may be relevant to a puzzle :)
