Total

Name: _____

Division:

☐ Beginner

☐ Experienced

3.1: Deficit Sudoku

35 Points

Rules: Place a number from 1-7 in each empty cell in the grid such that each row and column contains each number exactly once, and each marked region contains each number at most once.

		3		1		
	2		1		3	
1						3
	6				1	
4						6
	1		4		5	
		2		7		

3.2: Surplus Sudoku

40 Points

Rules: Place a number from 1-7 in each empty cell in the grid such that each row and column contains each number exactly once, and each marked 8 cell region contains each number at least once.

5						2
	7				3

			7			
		3		7		
	6				1	
4			6			3

3.3 – 3.4: Battleships Sudoku

65+200 Points

Rules: Classic sudoku rules and Battleships rules apply. Clues outside the grid indicate the number of ship segments in its row/column. Ships may be rotated in 90 degree increments, and different ships cannot be placed in adjacent cells that share an edge or corner. Given digits are also considered seas, so no ship should be placed on them.

3.5 – 3.6: Consecutive Clone Sudoku

55+50 Points

Rules: Classic sudoku rules apply. In each shaded region of the same shape, the numbers placed in corresponding cells of the regions must be consecutive.

3.7 – 3.8: Elimination Sudoku

10+100 Points

Rules: Classic sudoku rules apply. If there is a digit N in a cell with an arrow, the digit N cannot appear in the direction the arrow points at.

3.11 – 3.12: Little Killer Sudoku

35+95 Points

Rules: Classic sudoku rules apply. Numbers outside the grid give the sum of the digits along the indicated diagonal. Digits may repeat on each indicated (or unindicated) diagonal.

3.13 – 3.14: Wheels Sudoku

30+40 Points

Rules: Classic sudoku rules apply. The digits on the circles have to be placed in the same circular order in the four cells that are touched by the circle. The circles may have to be rotated to the correct position by 90, 180, or 270 degrees.
